著者:Ernst B. Haas

出版者:Rowman & Littlefield International

出版时间:2008-6-1

装帧:Paperback

isbn:9780955248870

Of all of the books produced by Ernst B Haas during his career, *Beyond the Nation-State* contains the most complete and definitive statement of ‘neo-functionalism’: the theory of trans-national integration for which he is best known. Focusing on the International Labor Organization (ILO), *Beyond the Nation-State* was one of the first efforts to analyse systematically the dynamics and effects of a global international institution. This book is regarded as a classic in comparative politics, international relations and amongst students of European Integration and has enjoyed a renaissance with the end of the cold war, reinvigorated European integration, resumed interest in communitarian theorising, and efforts to theorise about forms of global governance which relied on a heightened role for international institutions and their associated policy communities. First published in 1964, this book was part of larger project described by others as ‘neofunctionalism’, ‘regional integration’, and ‘soft constructivism’, which animated Haas throughout his career. *Beyond the Nation-State* continues to provide valuable guidelines for describing and understanding contemporary IR.

### 作者介绍:

Ernst Bernard Haas (1924 – March 6, 2003) was a German-American political scientist who made numerous contributions to theoretical discussions in the field of international relation. He was a leading authority on international relations theory and was the founder of neofunctionalism. Haas was a fellow of the American Academy of Arts and Sciences, and acted as a consultant to many national and international organizations. [
