Super Slam : Adventures with North American Big Game is Chuck Adams's first book retracing his epic journey to take all 28 North American big game species with a bow. Chuck relives those incredible hunts - all in one book - one that no serious bowhunter will want to be without it. Imagine staring at a snarling 9' polar bear at 15 steps with nothing but a bow in your icy hand and no backup firepower. Imagine a raw, raining, 15-day hunt for Alaska brown bears and placing a tiny sight pin on a 1,400-pound monster. Imagine trekking for the Grand Slam of wild sheep; muskox 50 miles from the North Pole; and a world record elk in the Montana mountains. The writing is vintage Chuck Adams - spine tingling, extreme bowhunting adventure with practical, proven bowhunting knowledge woven throughout.
