The bright idea behind this guide is to build an entire collection around one simple stitch that creates many intriguing effects. Shown in knitting instructions as 'k1b' (knit 1 below), the technique involves knitting into the stitch one row below the stitch on the needle with either a knit or a purl stitch. The result is an easy-to-knit fabric with wonderful drape and flexibility that looks equally good on both sides. The colour effects possible are also impressive: by alternating two or more colours, weights, or fibres, flattering vertical columns appear on one side of the fabric and a mottled

pattern shows on the other. Making the most of this double-sided characteristic, the projects include afghans, scarves, bags, jackets with turned-back lapels, and hats with turned-up brims, all constructed from simple shapes and requiring minimal finishing. Several designs go beyond the basic stitch by adding cables, felting, and intarsia designs.
