This book is an atlas, reference work and guide to the world of wine. Following a classic organization, readers are first introduced to the topics of the history of wine, wine production, wine cellars and the enjoyment of wine. From the yearly cycle of the fruit to modern cellar techniques, the experience begins with the creation of the wine. The reader is invited on a journey through all the winegrowing countries and regions of the world, with expert authors introducing each area, including Canada, Japan, and China. Naturally, Wine is also a reliable guide to buying wines. It includes numerous producer tips that convey sophisticated, highly useful recommendations.
