A lavishly illustrated Valentine's Day story written and illustrated by Patricia Eubank, Valentine ABCs tells the story of Little Dragon and his attempt to make the holiday a special day for all the people in his life. As Little Dragon makes homemade valentines for all his loved ones, he creates an alphabetical list of his friends so he doesn't forget anyone. As he goes through his list, he remembers why each person is special to him. With its rich illustrations and sweet story, this charming book helps children understand the concept of Valentine's Day while reinforcing the alphabet. For ages 4 to 8 years.
