Children will immediately be engaged with the originality of Barf's First Flight, the first in an adventure series that takes children around the globe. The "Adventures of a Sick Bag" book series appeals to the child's sense of humor in a different manner. Barf, a well-intentioned sick bag, desperately wants to help those in need. Barf's sidekick and

best friend, Tiny the Tissue, feels the same, but the pair never quite arrive in time to help due to a series of ridiculous mishaps. A cast of endearing characters, including Snooty French Linen and Peppy Dot on the Spot, bring to life a moral virtue in each story; educating in children a compassion for others while introducing them to a world beyond their own. Beautifully illustrated, "Barf's First Flight" will captivate young children, ages 1 through 8, with a charming cast of characters and their strong sense of fairness, courtesy, and good-natured friendship.
