出版者:Cambridge University Press

出版时间:2008-7

装帧:Paperback

isbn:9780521068345

Drawing on recent work in critical theory, feminism, and social history, this book explains the relationship between the novel and the emergent commodity culture of Victorian England, using the image of the "display window". Novels Behind Glass analyzes the work of Thackeray, Eliot, Dickens, Trollope, and Gaskell, to demonstrate that the Victorian novel provides us with graphic and enduring images of the power of commodities to affect our beliefs about gender, community, and individual identity. It will be of interest to students of Victorian literature and history as well as social and cultural theory.
