Admit how your pulse quickens when you see those headlines: 'Murder Spree of Schoolgirl Loner'; 'Boy, 13, Rapes Classmate'; 'Child, 10, Stabs Pensioner. ...It's understandable. Mugging, fighting, raping, killing--kids today, they're animals." Or so tells us narrator Anita Naidu, and she should know. At thirteen, Anita is the sole witness to London's notorious cave murders of 1986, which left three children dead. Told seven years later to the police psychologist who interviewed her at the time of the killings, Anita's story reveals the savagery of the playground one chilling detail at a time until the truth of what actually happened reveals itself with startling ferocity. Set against the bustling, tourist-packed streets of historic Greenwich, the novel examines sinister events that happen, quite literally, right below the surface.
