Kiss The Sky is an international tale of danger and intrigue featuring the bright and beautiful AJ Clark whose sense of justice and fair play entangles her in a plot to fix the Olympic Games. When no one seems to believe what AJ has uncovered, she sets out to solve the mystery herself in a fast action plot laced with murders, doping athletes, Native American historical elements, and budding romance. Her investigation involves AJ with a boyfriend who works for a sports shoe company but who actually is an undercover agent investigating illegal drug use in sports. Colorful characters -- a Chicago bookie who controls Olympics' gambling, a foxy charmer who goes after AJ's boyfriend, and a 60's throwback in an unlikely roll as tragic hero -- intensify the action.
