Winner of an "AJN" Book of the Year Award for 2009 Designated a Doody's Core Title

"This is an excellent and timely tool for advanced practice nurses." " Score: 100, 5 stars  
"--Doody's" Winner of an "AJN" Book of the Year Award for 2009 "This book serves as an ideal tool for assisting APNs in gaining an understanding of the process of outcomes assessment.... A] useful resource for APN students, researchers, educators, and

administrators...."

--Gail L. Ingersoll, EdD, RN, FAAN

Director, Center for Outcomes Measurement and Practice Innovation

Loretta Ford Professor of Nursing

University of Rochester Medical Center (From the Foreword)

Measuring patient outcomes is arguably the most important job of the advanced practice nurse (APN)-yet conducting outcome assessment and selecting the appropriate instruments for measuring outcome continue to be a challenge, even to the best in the field. This newly revised edition provides APNs with up-to-date resources and examples of outcome measures, tools, and methods that can be used to expand the APN's understanding of outcome assessment. The chapters outline numerous examples of practice-based outcome assessments, with detailed descriptions of how an assessment is conducted, as well as guidelines for identifying the proper instruments for measuring outcome.

New to this edition: An extensively updated literature review on outcome measurement A new chapter on outcomes assessment in primary care and ambulatory settings Guidelines for locating instruments and measures for assessment Information on an ongoing international initiative focusing on the development of an APN research data collection toolkit Written for nurse practitioners, clinical nurse specialists, certified nurse midwives, certified registered nurse anesthetists, and graduate level APNs, this newly updated edition serves as an invaluable resource for APNs, regardless of specialty area of practice or practice setting.
