Everything you need to enter your marriage with eyes wide open. Marriage is one of the few personal contracts in which your state dictates the terms -- unless you create your own customized premarital agreement. Combining Nolo's legal expertise and plain-English writing, Prenuptial Agreements makes a potentially touchy subject easy to deal with while explaining how to create a valid contract. The book covers whether a prenup is right for your relationship, how to decide what a prenup should include, how to assemble a draft agreement, how to turn your draft into a contract and tips on negotiating and communicating. Prenuptial Agreements provides worksheets as tear-outs and on CD-ROM, as well as clauses for preparing an agreement that suits your needs. The 2nd edition is updated with the latest laws of your state.
