著者:Maguire, Thomas Aquinas

出版者:

出版时间:2009-9

装帧:

isbn:9781894965798

This unique set of wordless picture books captures the magic of dreams. Featured are three whimsical dreams of flight: a young boy riding a flying dragon, a star transforming into a floating sheep, and a bird soaring on a paper airplane. The three unbound books unfurl in one's hands and, like many dreams, have no distinctive beginning or end, thus providing endless enchantment and enjoyment.
