Very practical science based tips and guidelines and stories for moms and dads of baby girls. Including: Why you need a book just about girls. The very different health

issues, genetic predisposition, hard wiring, neurological and biological development of girls, including unique strengths and weaknesses. How to understand the core nature of your girl and nourish it through problems of crying, fussing, eating, sleeping, attaching and other key issues during the first 12 months of life. Warm hearted stories about girls and tips from real moms, and a preview of what's to come for girls as they become toddlers, preschool kids, pubescent and beyond.
