Astrologer Rowan Davis throws open the door to the sexual psyche and shines a light on the skeletons inside. "The Sex Files" dissects the hang-ups and bedroom turn-ons of each of the twelve Sun signs, providing an insightful window into the minds of both men and women alike. Davis' profiles are remarkably revealing - sometimes uncomfortably so - and her spot-on honesty is bawdy enough to make you blush.

She'll leave you nodding in recognition of your past lovers - and maybe cringing in remembrance of some of your own secrets. Every naughty fantasy, every psychological game, every debilitating insecurity can be traced back to the horoscope, and Davis' insights prove a handy resource in attracting that perfect carnal companion - and steering clear of emotional train wrecks.
