Occasioned by a complete renovation of its facilities, the Frankfurt Liebighaus Museum has published this catalog of its most important works. Providing an overview of the collection's sculptural works from Egyptian and Asian sculptures through to ancient Greek and Roman sculptures to more recent works, this volume includes a comprehensive description of each piece, which places the work into its global and historical context. Liebighaus in Frankfurt has one of the most important collections of sculpture in Europe comprising Christian and secular works from over 2000 years and this book is a rare opportunity to take a close look at its collection.
