More than any other capital in Europe, Berlin is home to a veritable United Nations of

embassies, including delegations from countries many people have never even heard of. This entertaining and educational volume highlights the embassies of Berlin, and what an amazing tour it has to offer its readers. The variation of architectural expression and interior design is surprising and vast: some are modern, others are classic. Some clean, modern design, others are more folkloristic. The buildings and their design are as varied as the countries they represent. This book is the first published overview of the embassies in Berlin.
