This volume of the Animas-La Plata series describes the results of excavations at 9 sites at the western end Ridges Basin approximately 2 miles south of Durango, Colorado, as part of the Animas-La Plata (ALP) Project. The Western Cluster encompassed two and

possibly three groupings of single small Pueblo I habitations around the village site known as the Sacred Ridge site. The volume is concluded with a summary discussion of chronology, architecture, material culture, population, subsistence, and settlement within both local and regional cultural contexts.
