This collection takes photo puzzles to the next level! It's unique, creative and simply unlike any other book out there. Part of the successful "Spot the Differences" series - now with a new look and format - "Photo Tricks" features 100 colourful, entertaining, eye-catching images. Divided into three skill levels (Keen, Sharp and Masterful), they challenge solvers to find five, six or seven differences between two trickily similar photographs. The puzzles, which capture everything from people and animals to

buildings and landscapes, are gorgeous to look at and great fun to solve.
