装帧:Paperback

isbn:9781416047025

Now you can learn and master anatomy with ease, while having fun, through the unique approach of "Netter's Anatomy Coloring Book", by John T. Hansen, PhD. Using this interactive colouring workbook, you can trace arteries, veins, and nerves through their courses and bifurcations...reinforce your understanding of muscle origins and

insertions from multiple views and dissection layers...and develop a better understanding of the integration of individual organs in the workings of each body system throughout the human form. Online access to Student Consult - where you'll find the complete contents of the book and much more - further enhances your study and exponentially boosts your reference power. Whether you are taking an anatomy course or just curious about how the body works, let the art of Netter guide you!
