This portable, spiralbound handbook is a user-friendly guide to drug dosages, assessment tools, care plans, and other clinical information in psychiatric health care. It provides a quick-reference approach to need-to-know, critical information for clinical practice. The unique full-color design enables readers to quickly access the information they need in any setting. Consistent presentation of material within and across sections facilitates student understanding and allows easy navigation. Content includes 34 commonly used assessment tools, 84 drug monographs, and 28 care plans that integrate NANDA/NIC/NOC labels, enabling students to become familiar with the language of nursing.
