出版者:McGraw-Hill Higher Education

出版时间:2009-3-1

装帧:Hardcover

isbn:9780073379555

"Survey of Accounting, 2e" is designed to cover both financial and managerial accounting in a single 16-week course, presenting the material in a style easy for non-accounting majors to grasp. It incorporates the same pedagogical innovations that have made Edmonds' financial and managerial titles such fast-growing successes in the marketplace, including his unique "Horizontal Financial Statements Model" and a multiple accounting cycle approach that demonstrates the impact of related events over a series of accounting cycles.
