This book is the full story of John Hacker, who started the Hacker boat company in Detroit in 1914, and drafted some of the most popular and successful boat designs of all time. With a chronological history of both the man and his company, this book concentrates on the boats, drivetrains, and evolution of the powerboat design. It

highlights the life of John Hacker, and features the key designers that worked behind the scenes to make Hackercraft the most successful powerboat company in the world.
