ONE POWERFUL WORD Standing up to bullies of all kinds in a poignant tale. The word "No" repeated three times is the only thing said in this otherwise wordless book that speaks volumes. A young boy sets out to deliver a letter and witnesses acts of war along his way, both on the personal level, and on a world-wide scale. At a time when our country is at war, NO is a touching example of resistance and alternatives to conflict told through heart-wrenching illustrations from David McPhail at his very best.
