Encompassing a review of important paintings worldwide--both classical and modern--this exploration assures that anyone can understand and admire art. The reader will find increased appreciation for paintings, greater knowledge of different artists, and improved confidence in this brilliant exposition of painting in all its forms. The keen art collector, serious student, and occasional gallery visitor can all benefit from this journey of exploration through the centuries and across the painted world. This enduringly popular guide was selected as the best art book of the year by national and international newspapers and magazines and awarded the 2006 Montana Book Award for Contemporary Culture.
