50 Law Firms: Effective and Flexible Workplace Design showcases 50 new, renovated and remodeled law offices from across the U.S. With over 200 beautifully-reproduced and editorial by Roger Yee, the reader will discover how interior design has evolved in law offices. Although traditional design concepts are abundantly represented here, a fresh new approach is becoming evident in spaces that are bright, airy and modern. A blending of traditional and contemporary concepts are highlighted in conference rooms, workstations, library, file room, lunchrooms, lobbies and reception areas. An emphasis is placed on efficiency of design and layout to afford comfort and convenience for staff and clients. Presented are effective and economical workplaces

with a fresh appearance with some of the most innovative interiors, from the coolly suave to the richly distinguished. These are legal workplace environments created to meet the needs of the most exacting legal firms.
