In this brand-new " Adventures in Mathopolis " story, the town's befuddled Mayor Lostis Marbles is having all kinds of trouble dealing with fractions and decimals--and with a new dilemma: how to get out of a locked safe before it's too late . This time superheroes Silver Splitter and Dixie Dot come to the rescue, and readers who follow this fun-filled story will learn how to solve the many mysteries of fractions and decimals along the way. They discover easy ways to--

Understand proper, improper, and mixed numbers Find the least common multiple in fractions Add, subtract, multiply, and divide fractions Understand decimals Convert from decimals to fractions, and back again

This amusing Mathopolis story is enhanced with clever black-and-white illustrations. Kids learn along with Mayor Lostis Marbles and his gang that working with fractions and decimals can be fun.
