It’s a hot day in Africa and there isn’t a cloud in the sky. It’s hard to do anything on a day like this, so Saffy is determined to find rain. But are there other ways to cool off? Maybe a friend could help. Saffy’s search teaches her that solutions don’t always come where one expects them. Saffy Looks for Rain features simple yet bold graphics and vivid colors that help little ones learn basic shapes and capture the attention of even the youngest children.
