Get Synched! Learning takes place when students and instructors can effectively connect and communicate, and technology makes it possible. NEW PERSPECTIVES ON

COMPUTER CONCEPTS 2010 is the only guide to computer concepts that creates a fully integrated and truly interactive teaching and learning environment. The printed book, companion Web site, interactive BookOnCD with multimedia, and WebTrack assessment tool help instructors and students work in sync to explore, understand, and apply computer technology in their personal and professional lives.
