著者:James L Hiatt

出版者:Lippincott Williams & Wilkins

出版时间:2009-03-01

装帧:Paperback

isbn:9780781789325

Now in full color, the Fourth Edition of this classic text combines concise yet complete coverage of head and neck anatomy with superb photographs, drawings, and tables to provide students with a thorough understanding of this vital subject. This edition contains basic anatomic information not found in other specialized textbooks of head and neck anatomy. It details structures of the oral cavity from an oral examination point of view to promote the practical application of fundamental anatomic concepts. Other features include Clinical Considerations boxes that highlight the clinical significance of anatomy, a discussion of the anatomic basis of local anesthesia and lymphatic drainage, and an embryological account of head and neck development.
