MCTS Guide to Microsoft Windows Server 2008 Network Infrastructure Configuration

(Exam 70-642) is designed to prepare the learner to configure networks using the Microsoft Windows Server 2008 operating system. Appropriate for learners at all levels, the book fully maps to the 70-642 certification exam. It provides in-depth coverage of the operating system and hands-on activities, review questions, and case projects teach and reinforce the concepts of networking with Windows Server 2008.
