Written by internationally recognized leaders in the field of facial plastic and reconstructive surgery, this lavishly illustrated text is a surgical atlas for procedures to

rejuvenate the face as well as a guide for establishing, managing, and marketing a practice in facial rejuvenation. The opening chapters of Surgical Facial Rejuvenation offer practical guidance to understanding the relevant anatomy and evaluating the aging face. The surgical chapters are designed to present the surgeon with techniques that can be performed safely and efficiently, resulting in outcomes that are excellent and repeatedly achievable. The closing chapters offer advice for practice and patient management, marketing, and an outlook on the future of facial plastic surgery.

Highlights: * Chapters on skin care, soft tissue fillers, fat grafting, and hair replacement * A separate chapter on the aging nose, often not effectively discussed in other texts *

Important information on how to avoid and manage complications This book is an essential resource for facial plastic surgeons, otolaryngologists - head and neck surgeons, plastic surgeons, and cosmetic surgeons. It is especially valuable for residents and fellows in these fields, and for new practitioners starting up a practice in facial rejuvenation surgery. Dermatologists will also benefit from its wealth of information.
