Times Tables Made Easy is not a workbook. It's a full-color reference book, packed with hints, shortcuts, and secret strategies for learning your times tables. It includes time-tested, teacher-approved methods such as doubling (to master the 4x table, just

double the answers from the 2x table) and portioning (to figure out 6 x 12, break the 12 into 10 and 2). Illustrated throughout with helpful examples and funky stick-figure helpers, this fantastic guide makes learning times tables easy and fun.
