Dogs might be man's best friend, but that doesn't mean they don't poop on the rug.

This is the perfect book for dog owners and would-be dog owners. It points out the problems and solutions - puppy-proofing your home, removing skunk odors from your dog, how to teach an old dog new tricks, how to give your dog the heimlich manueuvre, charts showing incompatibilities between different dog breeds and your personality, and other canine delights. From the "Worst-Case Scenario" folks, here is more invaluable advice for surviving life's most dangerous and uncomfortable situations. "The Pocket Guides" provide all new material in a scaled-down form, focusing on more specific situations and occasions. This title features How-Tos, Instant Solutions, and charts that provide information on how to extricate yourself from different situations.
