Communicating ideas and information is what makes writing meaningful - yet many upper elementary and middle school students write in a vacuum, without considering the aims of their writing or the needs of their readers. This highly informative, teacher-friendly book presents a fresh perspective on writing instruction along with practical methods for the classroom. Teachers learn ways to promote the skills and strategies needed to write and revise effectively in a range of genres: personal narratives, fiction and poetry; persuasive, explanatory, and 'how-to' writing; and, writing for high-stakes tests. Special features include vivid classroom vignettes, examples of student work, evaluation guidelines, and suggested 'mentor texts' that model different genres.
