This easy-to-use kit introduces young gardeners to three types of unique foliage. One plant has leaves that 'cringe' when you touch them, another has leaves as soft as lambs' ears, and the third has leaves that look like they're splattered with paint. Simple instructions make growing these leafy wonders a snap to accomplish and the plants were carefully selected to be easy to grow and quick to gratify. Seed packets: Sensitive Plant, Polka-Dot Plant, and Lamb's Ear Kit includes: 3 see-through biodegradable planters, so kids can watch roots grow 3 seed packets 3 dried peat pellets (just soak in water to expand) Stickers to decorate the planters Book with growing instructions, plant science and history, science-fair experiments, recipes, and more
