Furry Friends, Same and Different maintains the format of the popular Flip-a-Face books, but with a twist! This book features a variety of furry friends; turn the page and the cat's face becomes a dog's. This time there's an expanded page, so each animal is shown in full and is set within an environment. Each page also poses a question: "How is the cat's face different from the dog's face? What is missing from this face?" Full of interactive fun, this book features a dog, cat, lion, lamb, cow, horse, tiger, and fox.
