isbn:9780696242410

Offers more than 180 pages of high-end trends and bathroom elements--more than the competition. Features "room tour" presentation of 30 luxury bathrooms, showing

each room from several angles along with numerous details; the competition shows only one or two shots of each bathroom. Organized by style rather than by feature or element so readers can "shop" photos for complete looks and understand how to pull the elements together.
