Shao is lonely because Tasuke only has time for Kiryuu's challenges. Shouko lies to Shao again and tells her that if two people only speak to each other for the duration of the first rain of the rainy season, they will be happy that summer. Shao believes this and tries to make it come true! Meanwhile, Kaori is preparing for Tanabata, when legend says the stars will make her dream come true. Her dream is to look at the night sky with Tasuke. Takashi tries to make this wish come true for her. But just when he thinks he failed, he inadvertently helps grant her wish!
