A massive international celebrity, at fifty-three Kevin Nealon thought he had it all. But like every other overindulged superstar, the perpetually insatiable Nealon wanted more: a little addition that drooled, burped, and pooped (no, not a Pomeranian). In *Yes, You're Pregnant, but What About Me?* Nealon courageously reveals the truth about confronting first-time dadhood at an age when most fathers are packing their kids off to college. In hilariously vivid detail, he carries the reader through all the emotional stages of pregnancy—discomfort, denial, hunger, exhaustion, self-consciousness, hungrier, confusion, crankiness, not-quite-as-hungry-but-still-craving-something, sweatiness, covered in cookie crumbs—while addressing the major worries that fathers everywhere have been dealing with for centuries: Can I duct-tape a crib together? How often can I reuse a disposable diaper? What if the baby looks like me and not my wife?
