No matter the level of the competition or the skill of the horse, with this dressage training system any rider with basic riding skills can learn the methods that have made Olympian Kyra Kyrklund so successful. Straightforward and traditional, the Kyrklund system comprehensively covers the fundamentals of dressage before progressing into

more advanced training. Two-way communication between horse and rider on an emotional level is emphasized throughout to further a solid foundation. This strengthened bond not only unlocks the techniques of one of the world's best dressage trainers, but it also provides greater enjoyment of horse riding on an everyday basis.
