In Volume 17, "Make Magazine" goes really old school with a special section on

steampunk, featuring projects that blend Victorian era technology with the cutting edge. Build your own marble adding machine or geared candleholder, and make music with a random music generator. "Make" continues to be a leader in the tech DIY movement due to its uncanny instinct to nail the curiosity, vitality, and passion of the growing community of Makers - DIY enthusiasts, hobbyist engineers/designers, and many others. If you like to tweak, disassemble, recreate, and invent cool new uses for technology, you'll love "Make", our project-based quarterly for the inquisitive do-it-yourselfer.
