Panic in Level 4 is a grand tour through the eerie and unforgettable universe of Richard Preston, filled with incredible characters and mysteries that refuse to leave one's mind. Here are dramatic true stories from this acclaimed and award-winning author, including

- the phenomenon of “self-cannibals,” who suffer from a rare genetic condition caused by one wrong letter in their DNA that forces them to compulsively chew their own flesh—and why everyone may have a touch of this disease
- the search for the unknown host of Ebola virus, an organism hidden somewhere in African rain forests, where the disease finds its way into the human species, causing outbreaks of unparalleled horror
- the brilliant Russian brothers— “one mathematician divided between two bodies” —who built a supercomputer in their apartment from mail-order parts in an attempt to find hidden order in the number pi ( $\pi$ )

In exhilarating detail, Preston portrays the frightening forces and constructive discoveries that are currently roiling and reordering our world, once again proving himself a master of the nonfiction narrative.

这是写《血疫》的作者的另一本书，也是关于疾病的非虚构。没有血疫精彩。
