Teaching Today's Health, Ninth Edition, balances comprehensive theory chapters with a wealth of effective classroom activities to give you the tools you need to become successful health educators. More than a simple collection of lesson plans, this book's strong background and depth in teaching prepares you for the challenges of today's teaching environment. In addition to addressing the increased diversity of today's classroom, this text also discusses the impact of No Child Left Behind and other recent legislation. The Ninth Edition now includes standards-based assessment criteria for

every activity in the strategies chapters, as well as easy-to-use integration information to help future instructors incorporate health lessons into other curricular areas when necessary. Priced significantly less than other books in the market, this attractive two-color book provides great value.
