For courses in Terrorism. Taking an unbiased approach, this book offers a lens into the history and status of terrorism around the world. Written from a global perspective, it addresses different regions of the world and the terrorist groups that originate there. Featuring new maps and photo art, this edition clearly shows students where terrorism exists and how prevalent it is today. Its systems approach explores various elements of terrorism, terrorists, and their motives and its wide range of current topics make the text suitable for all disciplines and points of view.
