For introductory courses on Computer Concepts or Microsoft Office Applications. The NEXT Series!making it easy to teach what's next! New software applications with the potential to transform our everyday lives are constantly emerging onto the market.

With this in mind, Introduction to Web 2.0 provides innovative instructors an opportunity to incorporate more than just the basic Office applications into their course. As part of an academic series written on alternative technology, this text presents key information on Web 2.0 and encourages hands-on learning throughout the material.
