The HarperCollins Student World Atlas contains ninety-two pages of reference maps complemented by highly illustrated coverage of major world issues and geography.

Topics, which include climate and weather, the oceans, population, the world economy, and health and communications, are presented through satellite images, photographs, graphics, and detailed statistics. The comprehensive index contains over 45,000 place names and includes special gazetteer-style entries providing information about selected places and geographical features around the world.
