Grab your flashlight and journey into the world's largest tropical rain forest to discover the fascinating animals that live there! From anacondas and iguanas to vampire bats and spider monkeys, Spotlight: Jungle Explorer offers a new and exciting approach to learning. This one-of-a-kind novelty book includes an amazing spotlight effect that illuminates the cover and four of the spreads. Kids learn specific characteristics and facts about each animal featured in the scene and are asked a related question at the bottom of each spotlight spread, which is answered when they turn the page. Filled with stunning computer-generated artwork and cool photographs, this book will get kids excited about learning so let the jungle expedition begin!
