Sire Galan has forbidden his servant and lover Firethorn to follow him to war, but she disobeys. When the army of Corymb sets sail for Incus, she is aboard a ship of the fleet, gambling on Galan's welcome. But the gods are as apt to meddle with the schemes of a lowborn mudwoman as the best-laid plans of her betters. The searing touch of Wildfire leaves Firethorn shattered, haunted, estranged from herself, and set apart from others. She feels cursed, but others see her as blessed. Whores come to her for healing, and soldiers search her every utterance for hidden prophecies. Is she a charlatan or a true seer? Even Firethorn cannot answer that question. And Galan is wary of what Wildfire has made of her. Sarah Micklem brings lush prose and rich imagination to the highly anticipated second book in the trilogy that began with her acclaimed debut, Firethorn. The enthralling combination of the mythic, the historical, and the deeply human confirms Micklem's place among the great storytellers of imaginative fiction.
