出版者:Palgrave Macmillan

出版时间:2009-3-15

装帧:Paperback

isbn:9780230616790

This collection examines how J.R.R. Tolkien delved into the Middle Ages to fashion a critique of the modern world that is postmodern in implication, subversive in nature, and oddly still traditionalist in motivation. Chance also explains the popularity of his works, their relevancy today, and their contested literary significance in academia.
