Drawing on her years of experience as an Arabic instructor and course developer, Samia Louis has used a functional approach to create a bright, innovative set of coursebooks for the study of Egyptian colloquial Arabic—the spoken dialect most frequently studied and most widely understood in the Arab world. Now three new books, for beginner, early advanced, and higher advanced students, have been added to the series. Designed according to the ACTFL guidelines for teaching Arabic as a foreign language, each book of *Kallimni 'Arabi* trains students through highly structured lessons in the crucial skills, with particular emphasis on listening and speaking, using real-life situations and expressions. The accompanying audio CD carries recordings of the dialogs and exercises in each chapter, made by Egyptian native speakers.
